PRODUCT PORTFOLIO

ILFORD

Established in 1879, ILFORD is one of the oldest photographic brands in the industry. With a history that spans over 135 years, ILFORD has been synonymous with professional quality from traditional analogue film and paper to providing inkjet paper for today's photo quality printers.

Over the last hundred years, ILFORD has had an eventful and interesting history (further details are available at www.ilford.com) however, its core values of offering professional quality products has always remained central to the business. More recently, ILFORD was one of the leading manufacturers in making the important transition from traditional analogue photography into digital inkjet.

Today, ILFORD remains one of the leading brands of inkjet photo paper for the professional marketplace under the ILFORD GALERIE brand.

ILFORD is synonymous with the highest quality products, and no more so than the GALERIE PRESTIGE Smooth Pearl. The product remains the photo paper of choice for many professional photographers throughout the world and it is exclusive to the ILFORD GALERIE range.

The ILFORD brand is now owned as a joint venture between Chugai Photo Chemicals and CR Kennedy & Company. Both companies have distributed the ILFORD range of products for many years and are extremely passionate about carrying the brand ethos forward and continuing to offer photographers the best photo quality inkjet products in the market.

Today ILFORD continues to work with leading manufacturers around the world to develop and produce the latest range of inkjet photo papers for the ILFORD GALERIE and ILFORD OMNIJET brands.

ILFORD GALERIE FINEART ALBUM

The ILFORD GALERIE FineArt Album range includes everything needed to create a professional quality photo album or portfolio.

The GALERIE Album is black with a synthetic leather finish making it extremely durable as well as water repellent. Also included are 4 different spines so the depth can be adjusted accordingly.

There is then the choice of the best selling GALERIE Prestige Media, available in packs of 25 sheets. Each sheet of GALERIE media is pre-scored, to ensure the pages lay-flat, and holes have been pre-punched so each page will fit into the album perfectly. Each box also includes two protection sheets for the front and back of the album.

The GALERIE Album and complementary GALERIE Prestige papers are available in a range of sizes.

Features:

- Choice of best-selling GALERIE Prestige media
- Pre-scored and holes pre-punched for a perfect finish
- Depth of album can be tailored
- Creates a professional quality photo album or portfolio

ILFORD GALERIE CANVAS PROTECT

ILFORD GALERIE Canvas Protect is a water-based coating solution designed to protect and enhance images printed on ILFORD GALERIE Prestige Canvas media. The Canvas Protect product offers improved scratch resistance and prevents the image from cracking when the print is folded around a frame.

Features:

- Available in glossy, semi-matt and matt finishes
- Does not affect the texture, tint or colour of the original print
- Improved scratch resistance and cracking
- Easy to apply

ILFORD GALERIE FINEART PROTECT

ILFORD GALERIE FineArt Protect GFAP-A and GFAP-N are coating solutions designed to protect images printed on ILFORD GALERIE FineArt media as well as other Fine Art inkjet prints.

It is especially designed to protect fine art inkjet prints from scratches and UV light without changing the original tint, colour and texture of the print.

Features:

- Improved scratch resistant
- Protects image against UV light
- Does not affect the texture, tint or colour of the original print
- Available in an aerosol or nozzle spray for easy application

ILFORD GALERIE CREATIVE EMULSION

ILFORD GALERIE Creative Emulsion is an inkjet coating solution that has been designed to allow printers the ability to create an inkjet print from any commercially available, traditional fine art paper. The final look and feel of the print can be tailored by blending together Creative Emulsion Blend A with Creative Emulsion Blend B.

Features:

- ILFORD GALERIE Creative Emulsion is available with two types; Blend A and Blend B.
 The two emulsion have different coating characteristic.
- Blend A solution is able to inhibit the ink bleeding on the paper to increase colour density and sharpness of the image without affecting the texture and tint of paper.
- Blend B solution will give greater sharpness and density to the print.
- It is recommended to experiment with the two blends to create the desired look to inkjet print.
- ILFORD GALERIE Creative Emulsion can be applied to many different kinds of papers, such as Washi papers, Rice Papers, Bamboo Papers, Cotton Papers and so on.
- Compatible with both pigment and dye inks.
- It is recommended to use a coating wire-bar to coat the ILFORD GALERIE Creative Emulsion.

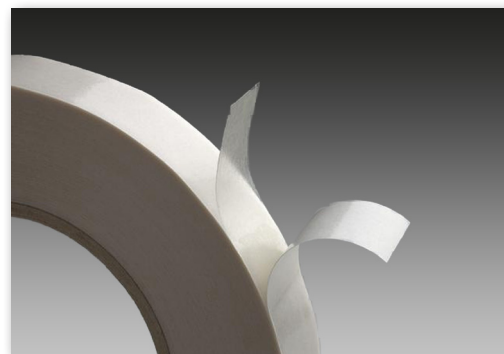

ILFORD GALERIE FINEART ARCHIVA

ILFORD GALERIE FineArt Archiva is designed specifically for mounting fine art prints particularly the ILFORD GALERIE heavy weight fine art and canvas papers. The FineArt Archiva is a very thin fibre paper that is coated on both sides with an acid-free, pH-neutral, water-based adhesive perfect for bonding heavy weight papers together.

Features:

- Perfect for mounting heavy weight fine art and canvas prints
- Acid-free, pH-neutral adhesive will not penetrate the print
- Suitable for archiving

ILFORD GALERIE FINEART ARCHIVA TAPE

- For occasional usage - e.g for fixing in a passepartout

ILFORD GALERIE FINEART ARCHIVA MOUNT

- For full surface usage
